MESSAGE FROM PRESIDENT

East West Institute of Medical College & Research is a pivotal institute of medical education and research located at Burdwan, amidst important topological places like Calcutta, Durgapur-Asansol and Shantiniketan. We are conscious about the upsurging advancement of medical education and research on global perspective. Side by side we are dedicated to provide medical service to ailments with utter dedication and devotion. We are proud of our faculties each of whom is remarkably potential, disciplined and punctual in their own fields having vast experience and sensibility.

We have around 10 acres of land full of greenaries and natural beauty. Our eco-friendly academic buildings include various departments that are spacious. Administrative buildings are always free to access for the students, patients and stakeholders followed by four hostels, two for female students and two male students. Mention may be made of the high security, ragging free campus and hospitality to keep our students amongst safe and secured atmosphere. Kitchen canteen cafeteria are hygienic.

We are extremely conscious about the implementation of modern scientifically devised Laboratories.

Our administrative, academic and supporting staff are also dedicated to cope up with the situations.

East West Institute of Medical sciences and Research is ready to welcome the students and others stake holders with coardial warmth and gratitude

Regards

Dr. S.K. Das

MESSAGE FROM SECRETARY'S DESK

Our vision is based on hard work, open communication, a strong emphasis on teamwork and high-level responsibility. This visionary culture allows and emphasizes our wards not only to adopt the present-day challenges but also to realize their individual responsibilities to society and our nation at large. Education fulfilling and enriching.

Learning should be based on doing things and not merely knowing things. Until and unless learning solutions relate to real life and motivate the learner to acquire and apply the knowledge, the whole process will remain superficial. The medical institution, worth its name, looks to optimize the welfare and wellbeing of humankind. Our institution has set special objectives and planned activities for achieving excellence in all spheres of medical education.

The service of the institution in creating personally mature, professionally equipped and service-oriented graduation is worth mentioning. We strongly believe in academic excellence and do not compromise on Teaching, Standard and Discipline. These three things are the springboards on which we operate.

People who feel good about themselves produce good results and people who produce good results feel good about themselves. We also believe in total learning and sharing. Have a visit to East West Education Institution and feel good to get a good education.

OUR MISSION

Leading the way in compassionate healthcare."

We at KIMS Hospital Burdwan are passionate about changing lives, healing hearts, and Igniting hope. Our goal is to offer topnotch, patient-focused healthcare services that go above and beyond traditional medical care. We firmly think that human connection, empathy, and compassion can change people's lives. We want to foster a caring and encouraging environment where patients feel appreciated, comprehended, and cared for with every interaction. By enabling people to face life's problems with newfound vigor and resilience, we work together to make a significant difference in the lives we experience.

OUR VISION

Committed to the health and wellbeing of every individual because proving care that heals, comforts and empowers is our mission."

We picture a day when healthcare breaks down barriers and redefines what is possible. To bring about a profound transformation in medicine, we aim to be innovation's catalyst. Our goal is to bring together cutting edge technology, caring service, steadfast commitment and creating new standards for excellence. We consider ourselves forerunners continuously advancing medical knowledge and venturing into new healing regions. With dedication to our patient's health, we picture a future in which each person receives individualized, holistic treatment that nourishes their body, mind, and spirit. We want to create a future where healthcare shines as a beacon of hope, enabling people and motivating future generations to succeed in the face of hardship. This is our vision.
